

"NO" ANSWERS CARRANZA TO AMERICAN DEMAND

No Need of Outside Interference in Mexico; Has Villa Beaten

HAS 150,000 MEN

Says He Will Discuss Recognition in Conference at Rio Grande

VERA CRUZ, Sept. 10.—General Venustiano Carranza's reply to the appeal of the United States and the Latin American countries for a conference between the leaders of the various Mexican factions having in view an adjustment of Mexico's internal struggle, is a polite but unequivocal "no."

In a note issued by Foreign Minister Acuna, General Carranza has told the diplomats that he can permit no interference whatever by foreign governments in the affairs of Mexico. He states that he is in control now of all Mexico except the states of Chihuahua and Morelos and a part of the state of Sonora. The signers of the note to Carranza are invited to come themselves, or to send representatives to some point about the Rio Grande for a conference. The note states that Carranza's government is recognized as the de facto government in Mexico.

The diplomats are told in the note that the first time Carranza has declined to participate in the conference. It is stated in the note that Carranza's government is recognized as the de facto government in Mexico. Carranza's government is recognized as the de facto government in Mexico.

Why Madero Failed

The reply insists that the first chief is actually the highest motives in declining to participate in the conference. Carranza's government is recognized as the de facto government in Mexico.

U. S. DOLLAR TO BE MADE TO WORLD POWER

Federal Reserve Board Takes Action to Facilitate Handling European Acceptances in This Country

WASHINGTON, Sept. 10.—The time has come, in the opinion of the Federal Reserve board, when the American dollar should take a dominating place in the financial markets of the world and when American or dollar exchange should become the medium through which the millions of exports and imports of the United States are paid.

MONEY COMMISSION REACHES NEW YORK

United States Must Co-operate in Adjusting Credit or Lose Big Foreign Trade

NEW YORK, Sept. 10.—The Anglo-French commission, seeking a way to meet the huge bills of Great Britain and France for American munitions and other supplies, reached New York today and was welcomed by J. P. Morgan and met approximately 100 bankers, insurance heads and leaders in other lines of finance late this afternoon at a reception in Morgan's library.

Tonight the commissioners were dinner guests of a party of New York financiers. Actual negotiations as to the credit they hope to establish here were not begun and will not be for several days. During this time, the commission will start on the actual details of the proposed loan.

ADMINISTRATION ALSO HAS EYE ON LESSER DIPLOMATS

Austrian Consul General and German Attache Involved

MAY GO HOME Technically Indiscreet But Not to Be Rebuked

WASHINGTON, Sept. 10.—President Wilson's request for the recall of the Austrian ambassador, Dr. Constantine Theodor Dumba, has brought into a situation involving Captain Franz von Papen, the military attache of the German embassy; Alexander Nuber von Bercked, the Austrian consul-general in New York; and possibly Count von Bernstorff, the German ambassador. The official view is that the ambassador, although technically involved, is not so seriously concerned as the military attache or the consul-general. It is not unlikely that both of the latter may be recalled or dismissed from the country.

AUSTRIANS IN U. S. APPROVE REBUKE OF DUMBA DIPLOMACY

CHICAGO, Sept. 10.—A telegram expressing the belief that more than half the population of Austria-Hungary condemns the Austro-Hungarian ambassador's attempts to interfere with American industries was sent to President Wilson from Chicago today by an organization representing more than 12,000 of Dr. Dumba's countrymen.

KIDNAPED FROM AMERICAN SIDE

U. S. Citizen Now Held for \$2,000 Ransom in Mexico

WASHINGTON, Sept. 10.—State and war department officials were aroused today over the kidnapping of an American citizen by Mexican bandits at Columbus, N. M. John Loveland, a ranchman, was seized by a band of Mexican bandits while driving through the border from Columbus, and word sent back that he was being held for a \$2,000 ransom.

AMERICANS PLAN NEW PACIFIC LINE

HONOLULU, T. H., Sept. 10.—Paul S. Hensch, United States minister to China, who was here today en route to Peking, said that American capital in New York was planning a new trans-Pacific steamship line which would take the place of the Pacific Mail company.

THORWALDSON GETS M'LAUGHLIN; RACES FOR NEVADA LINE

Legal Proceedings Taken by Griffith Agent to Prevent Extradition From Nevada

(Special to The Republican.)

With Deputy Sheriff Thorwaldson fleeing the state of Nevada in an endeavor to thwart the efforts of John McLaughlin's attorneys to hold him until habeas corpus proceedings could be instituted, and with several new complaints of the state's officials in regular dealings brought to light, developments in the case of the alleged swindler, were rapid last night.

The action of Thorwaldson is for the time clouded. His plans were altered after 10 o'clock yesterday morning, for a telegram received by Sheriff McLaughlin at that time, stated that the deputy would leave Reno for Carson City at 1 o'clock yesterday afternoon.

TAFT REPUDIATED SAYS POINDEXTER

Points Out Absurdity of Ex-President's Position

SPOKANE, Sept. 10.—United States Senator Miles Poindexter, the lone Progressive senator, who announced that he would seek re-election as a Republican, today replied to the speech of President Taft, made to the Young Republican Club at Seattle Wednesday night, welcoming the Progressives back to the Republican party.

CHARGE MISUSE OF AMERICAN FLAG

British Patrol Boat Sinks German Submarine Shelling Steamer

NEW YORK, Sept. 10.—Confirmation of the London report that a German submarine was sunk on August 10, while shelling the British steamer Nicolson, was received here today with the arrival of the steamer Lapland. It was also learned that the British patrol boat which sank the submarine flew an American flag while approaching the scene. Just before she was ready to open up with her guns the American flag fluttered down to her deck and the British ensign was hoisted in its place.

## PARK PLAYGROUND WILL CLOSE TODAY

Place Proves Blessing to  
People Living Down  
Town

The playground in Courthouse Park will go out of existence today. This playground was established about three months ago as a special place for children to play, and according to city officials, it proved a blessing to people in the business district during the heated period. During July this playground was patronized by 13,000 children and during August 12,000, the population during August being due to the fact that many boys were busy in the vineyard picking grapes.

"The Courthouse Park playground has been a blessing to the children of the city," said Superintendent Quigley of the play grounds yesterday. "It emphasized one point above all others, namely, that more playgrounds are needed in Fresno. This playground was only a special affair, and if it can be so well patronized it is reasonable to conclude that the city would do well to establish at least one more regular playground."

The playground in Courthouse Park was especially valuable on market days when parents could leave their children there while they did their shopping. Also, parents in the business section found it valuable, as it provided a place for the children to play, otherwise than in the streets, where they were exposed to danger. We received a number of requests to have this playground kept open longer, if not permanently. But of course that is a matter the supervisors must decide."

## CLAIMS PROPERTY IS BEING DAMAGED

Owner Seeks Injunction  
to Stop Tenants From  
Removing Crop

Baldassare Fontana yesterday brought suit against Patello, Sebastiano, Salvatore Leggeri and Giuseppe Leggeri to secure an injunction prohibiting them from removing crops from the northeast quarter of section 16, township 13 south, range 18 east. It is alleged in the complaint that defendants will be \$387.50 behind in their rent on the 23rd of this month and that they have threatened to remove the crop and not meet their obligation. It is also alleged that the defendants have been removing crops for want of water and that the defendants are not fulfilling their contract and caring for the vines. The suit was filed by Warlow & Warlow.

## INVESTMENT COMPANY CLAIMS NOTE UNPAID

W. L. Scales Starts Suit  
Against Selma Rancher  
for \$1250

Another suit by the San Joaquin Valley Investment Company because of the non-payment of a \$1250 promissory note given for stock in the company was started yesterday by W. L. Scales against A. W. Jacobson. It is alleged that the note was issued in Selma on January 7 of this year and it is not forth that neither the interest nor principal have been paid. Scales has purchased the note from the investment company. E. A. Williams is attorney for the plaintiff.

## Why Not Get Rid of Eczema?

If your skin itches and burns with eczema or any such tormenting, unsightly skin disease, simply wash the more places with Resinol soap and hot water, dry, and apply a little Resinol Ointment. The itching stops INSTANTLY, you no longer have to dig and scratch, sleep becomes peaceful, and healing begins at once. That is because the soothing, antiseptic Resinol medication strikes right into the surface, arrests the action of the disease, and almost always restores the tormented skin to perfect health—quickly, easily and at little cost.

Prepared by Doctors for over 20 years, and sold by every druggist. For sample form write to Dept. J. R. Resinol, Baltimore, Md.

Come. —Second Floor

## FRESNO VISITOR IS FRIEND OF DUMBA'S MESSENGER

H. R. Dorr Did Newspaper Work With James Archibald

American Adventurer Now Involved in Diplomatic Tangle

Twelve years ago, H. R. Dorr, a railroad man, who visited friends in Fresno yesterday was a newspaper man connected with the Manila Freeman, the first English newspaper published in the Philippine Islands. Associated with him was a young free lance writer, James Archibald. Dorr yesterday was surprised to learn the prominent man his former friend is now playing in the diplomatic tangle which exists between the United States and the Austro-Hungarian government over the actions of Ambassador Dumba.

Archibald is implicated in the events which several days ago led the state department to ask for the recall of the Austrian envoy. Archibald, an American, acting as a dispatch carrier through the enemy's lines with important messages, was intercepted. United States authorities claim that Archibald was acting in the employ of the ambassador, who is accused of attempting to further a strike of Austro-Hungarian employed in American military plants.

"Young Archibald was a typical world adventurer," Dorr told friends yesterday. "He was the soldier of fortune type always involved in hazardous enterprises. At the time we worked together on Manila newspapers, the Russian-Japanese war was being waged and Archibald always was involved in intrigue. He had worked for newspapers in all parts of the world and was a capable writer. His thirst for adventure, however, seemed insatiable, and was always leading him to new fields. He has followed most of the late wars as correspondent and was a great friend of James R. Hopper, the short story writer and war reporter."

Dorr has followed the changing fortunes of his friend for many years, but only recently lost track of his whereabouts. He heard of his latest entanglement in the Associated Press

## FALLING WALL CLAIMS DOS PALOS BOY'S LIFE

Six Year Old Son of John Bernardi Dies of Injuries

While playing on the floor of a house in the course of construction, Thursday afternoon, Annabelle Bernardi, 6-year-old son of John Bernardi, of Dos Palos, was caught beneath a falling wall, sustaining injuries from which he died in this city yesterday afternoon.

The little tot with several other children were playing a game on the floor. The wall, which had been erected a few minutes before, suddenly fell inward, pinning the boy beneath its weight. The force of the falling timber fractured the boy's skull.

He was rushed to a local sanitarium Thursday night and lived until 2 o'clock yesterday afternoon. The inquest will probably be held today.

dispatches of the Republican yesterday morning. Archibald is now threatened with the loss of his American passport, which enabled him to travel safely through the belligerent countries of Europe.

## Building Permits

The following permits were issued by the building inspector yesterday: W. J. Dunning, owners; 1316 Q street; estimated cost, \$1,000. John F. Munental; 623 Indiana street; estimated cost, \$75.

The following permits for alterations were issued: H. H. Cullen, owner; 2522 Ventura street. F. Kinsell, owner; Burnell Iron Works, contractor; 1823 Mariposa street. J. F. McHugh, owner; J. H. Phillips, contractor; 1246 A street.

## CHURCH TO HOLD SINGING SERVICE

The First Christian church will open its evangelistic campaign on Sunday evening with a big singing service on the roof arbor. The big chorus of the church will be directed by Mr. Youtz, and special solos will be given by Mrs. Murdoch and Mr. Greenwood, violinist. The morning service will begin at 10:45 a. m. Dr. Breckenridge on "Under the Junior Tree" or "The Cure for Despondency." There will be special music. Bible school will be held at the old hour, 9:30; Christian Endeavor at 6:30. Mr. Youtz will give the evangelistic message at the evening service, 7:45.

## IN THE LODGE ROOM

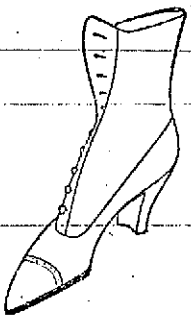

Knights of Pythias.  
Fresno lodge No. 138, Knights of Pythias, will on Wednesday evening, September 29, hold a convention devoted to the long in the memories of the Knights of Pythias and vicinity. It is planned to make this veterans' night. Veterans and other Knights who have not honored the lodge with their presence for some time will be present. A committee was appointed at the convention last Wednesday evening to make arrangements and assist the social committee. For the entertainment of the veterans an enquiry will be charged in the chivalric rank of knight. All matters of business except sick and relief benefits will be eliminated and the floor will be given to the veterans for the discussion of the good of the order and reminiscences. The social committee will cater to the needs of the inner man at a banquet to be served after adjournment. Let all Knights and especially the veterans of Fresno and vicinity be present.  
Odd Fellows.  
Fresno Encampment No. 73, Odd Fellows, met last night in regular session. No business of importance was transacted.

## PERSONAL MENTION

H. Y. Davis has returned to Fresno after a month's vacation in the mountains.  
Gerald Hills and Leon Edgcomb of Pasadena, traveling motor to San Francisco, were at the Hotel Fresno yesterday.  
John E. Mowra and Mrs. Mowra of Kokomo, Ind., tourists, were at the Grand Central hotel yesterday.

at a time at least we will be able to supply the demand. At 10c and up.

Then again we have large stock in securing a large stock of those deliciously smelling little jumping rabbits. They come in all colors, there are also the "Reely Troops" dolls, especially attractive to little girls. They come in a box, with cloth or dresses. These are now out and they have to be seen to be truly appreciated. We have a friend's present of a set. A box 25c.

Also, as you know, the freshest stock, because of their more frequent sales and the resultant necessity of buying fresh stock continually.

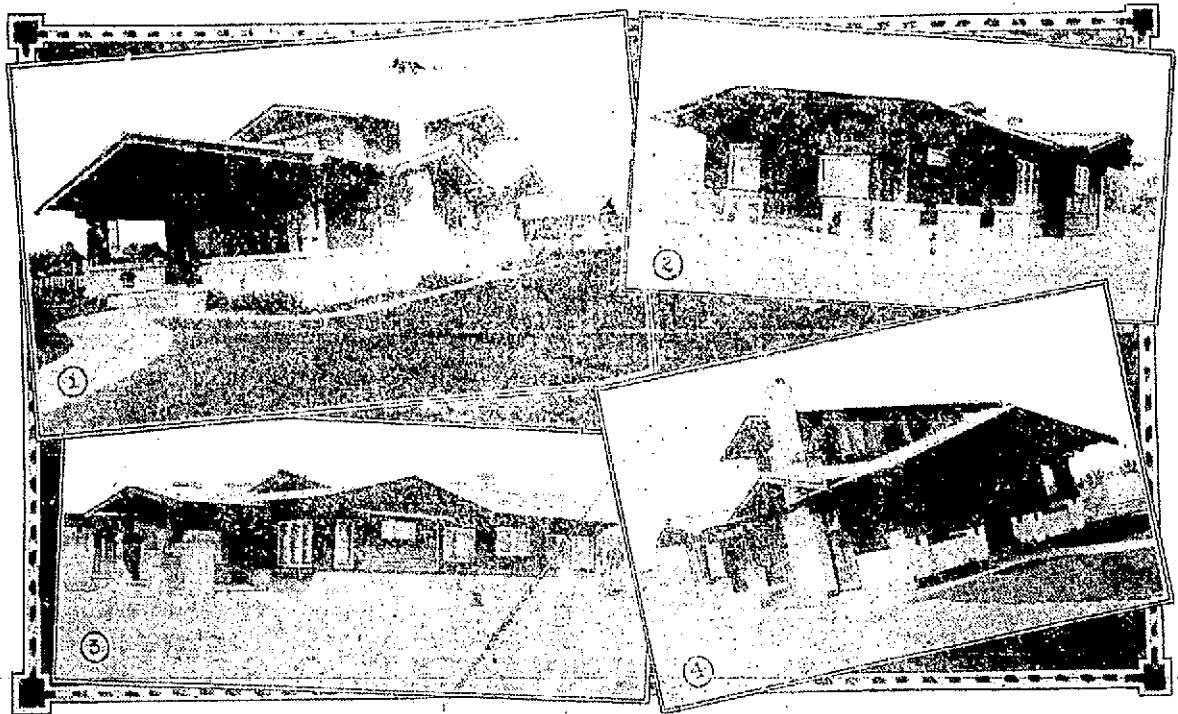

We sell great quantities of hot water bottles, fountain and bulb syringes in various combinations, rubber gloves, nursery articles, combs, hairpins, etc., and are constantly receiving fresh new stock. We urge you to buy an order today. Tomorrow is not the time to get the service and satisfaction you are entitled to.

That section at the picnic is what you desire. Those who have shared your association with you will appreciate some pictures of this kind far greater than almost anything else you can give them. If you have the means and "fanned them" are doubly attractive. To see all of our pictures and might compare with the pleasure and satisfaction be derived from the enjoyment of the picnic. I do not want your negatives in a few that would be appreciated.

RESIDENCES JUST COMPLETED SHOW TENDENCY IN FRESNO TOWARD SWISS  
CHALET AND AEROPLANE TYPES IN DWELLING ARCHITECTURAL DESIGNS

These residences, located on Kerckhoff avenue in the Alta Vista tract, are characteristic of the new Swiss

## NEW RESIDENCE PLANS FINISHED

Plans for an attractive residence of the bungalow type have been prepared by Bowen and Davis for Mr. Shapman, and it is understood work on the building will be begun in the near future. It will be built at street and Ventura avenue. The residence will have seven rooms and will be modern in every respect, embodying large porches, pergolas

## EXCAVATION FOR GARAGE BEGUN

The work of excavation for the Thompson garage has begun and will be pushed until the foundation can be laid. The building, which is to be at Stanislaus and I streets, will be a one-story brick structure. Feltner and Company are designers and builders.

## REEDLEY VINEYARD ACQUIRED IN TRADE

Blackley Property Is to Be Put to Muscats By New Owners.

The Blackley vineyard, a few miles to the east of Reedley, and consisting of eighty acres, has been acquired by A. L. Bolin and his sons, Ray Bolin and Nelson Bolin, of Reedley. The property, which is said to be one of the most desirable vineyards in the San Joaquin Valley, is valued at \$25,000.

## RESIDENCE IS ABOUT FINISHED

Among the many fine new residences built in East Fresno during the past year is one just about completed for Mr. Sumner of Huron, near Coalinga, who has erected a large brick dwelling on the south side of Ivo street, between S and T streets, which he will move into soon with his family and make Fresno his home. The building is finished by hard wood and in all its appointments is one of the really handsome residences of that section of the city across the Santa Fe. The dwelling will cost about \$20,000.

## Save The Baby Use the reliable

**HORLICK'S**

**ORIGINAL Malted Milk**

Upbuilds every part of the body efficiently. Endorsed by thousands of Physicians, Mothers and Nurses the world over for more than a quarter of a century.

Convenient, no cooking nor additional milk required. Simply dissolve in water. Agreeable when other foods often fail. Sample free, HORLICK'S, Racine, Wis. No Substitute Is "Just as Good" as HORLICK'S, the Original.

## CONSTRUCTION BEGUN ON TUPPER BUILDING

Excavation for Foundation Pillars Is Well Under Way

Following the signing of the contract recently for the construction of the Tupper building, at Kern and K streets, the work of excavation has been practically completed and the foundations for the concrete underpinnings have been begun. The structure, to be six stories and basement, will have seven retail store apartments, three on K and four on Kern street.

## BUSINESS BUILDING WORK IS FINISHED

First Floor and Basement at J and Merced Are Ready for Tenants

The extensive alterations and renovations in the Shaver building at J and Merced streets, which is to be the new home of Sherman, Clay and Company, are practically completed except for a few minor touches, and the firm expects to be installed in the improved home within the next few days. The first floor and basement is of good size, of feet on J street and the feet on Merced.

On account of the nature of the business it will house, the improvements are rather unique. There are sound-proof, perfectly ventilated glass partitioned demonstration rooms, rooms for records and player music, sales room, a ladies rest room, telephone booth and a well equipped shop for repairing. The basement is designed for a rent room and for storage.

The lighting and cooling system is the most modern. In summer the air will be cooled to 70 degrees below the temperature of the street. The front is of glass and marble. Feltner and Company are architects and contractors in charge of the work. Sherman, Clay and Company are at present at 1044 J street.

## PROGRESS IS RAPID ON STATE NORMAL BUILDINGS

Structures May Be Finished and Occupied By End of Year

Gymnasium Much Further Advanced Than Main School Hall

Work is progressing rapidly on the buildings of the Fresno state normal school, forty millions being employed on the high work along the last week. The gymnasium building is much further advanced than the main structure and the smaller building is expected to be completed and used for some time before the end of the spring term of the school.

The main building probably will be completed by the end of the spring term and it is the plan of the faculty now to hold the commencement exercises in it. While this is probable, it is practically assured that the building will be dedicated before the spring term ends.

At the meeting of the executive committee of trustees of the school last Thursday, C. L. McLean, president, was authorized to prepare estimates for the furnishings and equipment of the buildings. For this purpose there is \$45,000 available.

The sum of \$12,000 has been appropriated for the layout and beautification of the grounds.

## DINUBA TO HAVE SCHOOL BUILDINGS

Plans Are Being Drawn for City and North City Structures

Plans for a modern grammar school building at Dinuba and for a small school and pumping plant in North Dinuba are being prepared by Glass and Butler.

The small school in North Dinuba will be of the bungalow type of building and will embody all modern ideas in school construction for a house this size.

The grammar school building for Dinuba city will be a four-room brick structure. It will contain a teachers' room and a girls' rest room, to be located at each end of a long corridor. The class rooms will open off this passage.

Each class room will be equipped with blackboard, lockers for the pupils, lunch baskets and other personal effects, and throughout the building will be taken to the front the best effects in light and ventilation. Members of the school board, E. S. Burum, H. S. Demaree and Mr. Boone visited the schools of the valley towns before deciding on the projected building.

## TEN ACRES BRING \$5,500 AT SANGER

Ranch and Dairy Adjoining Town Are Sold to Ohio Man

The ten acre tract of George D. Nelson, just east of Sanger has been bought by B. L. Millard of Cleveland, O. The land, which is just a little more than ten acres, brought \$5,500.

The ranch is described as almost ideal and Mr. Nelson has been conducting a small dairy in connection. Mr. Millard planned to take possession immediately, he stated, and will arrive with his family soon. Mr. Nelson will remain at Sanger.

## WEEK'S SALES

J. E. Hughes, manager of the Fresno Home Builders, reports the following sales: Six room bungalow in Palm Villa, to Mrs. J. P. Turner and the signing of contracts for building residences of six rooms and two rooms, one in Orchard Hill Addition and the other in Palm Villa Tract. The sale of a five room bungalow on Riverside avenue also is reported for the week. Mr. Hughes reports the activity in houses and lots increasing considerably during the last few days.

# GERMANS PREPARING WESTERN ADVANCE

## Use Asphyxiating Gas to Force Way to French Trenches in Vosges Mountains

LONDON, Sept. 10, 10 p. m.—The Germans have repeated in the Vosges mountains the attempt which they made to break through the French lines in the Argonne forest, which possibly indicates that the long expected offensive in the west will not be much longer delayed. In these attacks, the Germans claim that they were enabled to occupy some French trenches. The French report, issued later, admits this, but says the German progress was accomplished by the use of asphyxiating gases and that in counter attacks the French regained the greater part of their lost ground at Hartmann's Wellerkopf and later repulsed another violent attack against that position.

Hartmann's Wellerkopf, which was taken by the French during their spring and summer operations, probably has been the scene of as much hard fighting as any place on the whole front. It has changed hands a dozen times. Yesterday the Germans by assault again got a footing on the summit, but according to the French report, were driven down again during the night. Outside these events, the armistice in the west have been engaged in almost continuous artillery duels, bomb throwing and air raids.

**German Continues Advance.**  
In the east there is little change in the situation. The two Russian successes on the Sereth river, Galicia, while they made a big capture of men and guns, have not interfered with the Austro-German advance. Further north, the Austrians have taken Dubno, the second of the triangle of fortresses to fall into their hands and with the help of the German army advancing to Rovno, the third of these fortified centers.

Meanwhile the Germans from the south of the Pripiet marshes to the region southwest of Vilna are fighting hard and with some success for the strategic railway system of the Dvinsk-Vilna area.

Most of this railway system is already in the possession of the invaders but they are now aiming particularly at the main trunk line, which starting at Biala runs through Dvinsk, Vilna, Lida and the east Pripiet marshes to Rovno and onward to Lemberg, Galicia. Military critics express the opinion that once this line is in the hands of the Austro-German

forces they will go into winter quarters for the more important military purpose of bringing an, large part of the Russian forces to a decisive battle under disadvantageous conditions now seems out of the question, as the autumn rains already have set in.

The three main Russian frontiers under General Ruzsky, Everet and Ivanov, although reduced and outnumbered, still are full of fight, as is shown by their offensive on the Sereth river and the Austro-German must look to their own defense before reinforcements reach their opponents. Nothing from Dardanelles.

There is still a dearth of news from the Dardanelles.

On the Austro-Italian frontier, the Italians continue their attacks in the mountain regions where their progress is slow.

It is disclosed by the Sofia correspondent of the Associated Press that Serbia has offered to cede Macedonia as far as the Vardar river, to Bulgaria, but that the latter wants the whole of Macedonia. This is where the negotiations, it was feared, would reach the deadlock, for above all things Serbia desired to maintain a common border with Greece while Bulgaria has always demanded the cessation of Macedonia, which, being near the southwestern border, would make a common border impossible.

### Belgian Report

HAYRE, Sept. 10.—(8 p. m.)—The following statement of operations of the Belgian army was issued today by the Belgian military authorities:

"German artillery showed some slight activity today, directing fire on Hannuapelle, Pringles, Oudersyck, Onkerke, Oudecapelle, Rominghe, Treppegate, and also upon several other of our advanced posts.

"Our artillery replied with a heavy bombardment of the enemy's trenches along the bank of the Yser canal, where several detachments of the enemy were dispersed."

### French Report

PARIS, Sept. 10, 2:32 p. m.—Artillery fighting continued yesterday and last night along the lines in France according to announcement made today by the French war office.

In the Vosges the Germans made use of asphyxiating shells and flaming liquids as a result of which a French trench of the first line has been evacuated. A French counter attack, however, resulted in the recapture of the greater portion of the lost ground.

The statement given out by the War Office reads:

"There was continued artillery firing last night in the vicinity of Arras, in front of Roy and on the front in Champagne.

"In the Argonne, in the sector of Laprazee, there was fighting with hand grenades and bombs, as well as rifle exchanges from trench to trench, together with effective intervention several different occasions by our batteries.

"In the Vosges, the enemy yesterday attacked our positions between the Lingehop, as far as the Hartmann's Wellerkopf, making use of asphyxiating shells. At Schatzmannelle a trench of the first line had to be evacuated following the throwing by the enemy of flaming liquids. A counter attack made it possible for us to recapture the greater portion of the lost ground, and to secure a position about 30 feet from that portion of the trench which we could not recapture. Along the rest of this front our positions were virtually maintained.

"Yesterday evening the Germans delivered an attack against our trenches on the summit of Hartmann's Wellerkopf, which resulted in their winning a foothold during the night. We, however, delivered a counter attack, recaptured the trenches and drove the enemy back to his line.

"Our aviators bombarded the German mines and batteries in the Forest of Monnenbruck as well as the railroad station at Luttenbach. Furthermore, about 30 bombs were thrown down on the railroad station at Grand Pre."

### Casualty Lists

LONDON, Aug. 31, (Correspondence of the Associated Press).—Official casualty lists for the fortnight ended August 30 indicate the severity of the recent fighting in the Gallipoli peninsula, whence the bulk of the casualties are announced. They show that the British army lost 47 officers killed and 989 wounded and 18 missing, a total of 1,036 for the fortnight. This number has been exceeded only once in any fortnight since the beginning of the war, 1,827 casualties having been announced between May 5 and May 15.

Losses of officers since the outbreak of hostilities have now reached a total of 13,346, of whom 4,780 have been killed, 9,033 wounded and 1,332 reported missing.

During the fortnight brigadier General A. H. Baldwin has been killed, three other brigadier generals have been wounded, nine lieutenant colonels killed and two reported missing.

### German Report

BERLIN, Sept. 10, via London.—(3:45 p. m.)—French trenches near Schatzmannelle and Hartmann's Wellerkopf in the Vosges have been captured by storm by German troops, headquarters officially announced today.

The text of today's statement by German army headquarters follows:

"West of Souches an advanced French

# CLOSING OUT ALL BOYS' SHOES!

We have a full stock of all sizes and styles for boys. During our sale while we are closing them out we will make substantial reductions. Outfit the boys for school now!

### Turkish Report

CONSTANTINOPLE, Sept. 9, via London, Sept. 10, 7:55 a. m.—The following official statement was issued today at the Turkish war office:

"At Anafarta our artillery fire against enemy positions behind the Hazinlik Dere caused explosions of ammunition and shells in enemy trenches Wednesday.

"At Ari Burnu the enemy unsuccessfully dropped shells on our landing."

### Aviators Killed

GENEVA, Sept. 10, via London, 10:50 a. m.—Two French aviators were killed at Deyingen, Alsace, when their machine struck barbed wire entanglements as they were making a landing, causing the explosion of bombs aboard the airplane. They had been forced to descend because of motor trouble. The aviators were buried by the Germans with military honors.

### Spy Executed at London

LONDON, Sept. 10.—(3:20 p. m.)—Official announcement has been made that a spy was executed here today. The name of the person executed was not given.

### Planning New Cabinet

PETROGRAD, Sept. 10, via London, 12:10 p. m.—Consultations regarding the forming of a new cabinet are in progress. The cabinet members elected to hold these conferences are expected to report to the council of ministers tomorrow.

The public is awaiting with keen interest the result of these conferences.

## INCENDIARY FIRES IN HOP DISTRICT

Sonoma County Authorities Are Aroused to Action

SAN FRANCISCO, Sept. 10.—Fires of alleged incendiary origin which have within the last week caused an estimated loss of \$50,000 have aroused the growers of hop districts to an attempt to run down what they believe is an organized arson band.

The barn of O. E. Blalock at Hopland was destroyed yesterday by fire, which consumed 24,000 pounds of hops valued at \$15,000 inclusive of the structure destroyed. Several days ago the hop barn on the ranch of Mrs. M. T. Woodward, near Santa Rosa, was destroyed with a loss of \$25,000.

The circumstances of the fires, the timing of them, and the fact that in both instances they had been completely filled with the harvest with little alarm throughout the hop districts, has resulted. The largest ranches have employed forces of guards who will keep vigil day and night.

Police and detectives openly charge that the malicious migratory workers have organized a campaign of destruction in the hop growing districts as a protest against the continued imprisonment of Richard Ford and Herman Suhr for the killing of Frank Alarwell, district attorney, in the Wheatland riots in 1913.

## TO HEAD AMERICAN HEALTH ASSOCIATION

ROCHESTER, N. Y., Sept. 10.—Dr. John F. Anderson, director of the hygienic laboratory, Washington, D. C., was elected president of the American Public Health Association at today's session. Other officers elected follow:

First vice-president, Dr. George W. Golen, health officer, Rochester; second vice-president, Dr. Charles J. Hastings, medical officer of health, Toronto, Ont.; third vice-president, Dr. Omer Fillette, Colorado Springs, Colo.; treasurer, Dr. Lee K. Frankel, Metropolitan Life Insurance Company, secretary, Prof. Schakel M. Quinn, Boston, Mass.

Several ministers in newspaper having been repudiated the idea that they would cling to office from personal ambition.

There is no further talk of an immediate prorogation of the Duma. Everything hinges upon the question of a reorganization of the ministry.

## PEACH GROWERS AT KINGSBURG; BIG SUM PLEDGED

New Company Receives Hearty Support of Entire District

Selma Comes Through With Subscriptions; \$60,000 Raised

An enthusiastic meeting of peach growers was held last night at Kingsburg under the auspices of the executive committee of the recently organized California Peach Growers Company. As a result of the meeting practically every peach grower in this vicinity will become associated with the new company.

Growers gave forward generously with subscriptions for stock in the new company, which promises to establish a permanent and profitable market for dried peaches and place the industry on a business basis, similar in many ways to the raisin industry under the direction of the California Associated Raisin Company.

A committee for the district was appointed. This committee will have as its principal duty the organization of the district and the promotion of the welfare of the peach industry there in the interests of the newly organized company.

Those who attended the meeting from Fresno were William Robertson, secretary of the Chamber of Commerce, William Glass, J. P. Bolton, Lucien Wharton, T. B. McKelvey, of the executive committee and Clarence Holland and C. E. Osborne, Jr. Each of these delivered short addresses.

Best Meeting Yet Held

It was by far the best meeting yet

held by the executive committee from a financial standpoint, a total of \$6,140 being subscribed for stock in the new company.

John Arthur Anderson was named president for the district and A. T. Linden secretary. With the subscriptions raised last night at Kingsburg the total already collected by the new company amounts to between \$50,000 and \$60,000. The amount signed up at Kingsburg exceeds that of any community yet visited by the executive committee.

Following is the list of Kingsburg people to enter the company and the amount subscribed:

A. T. Lindgren, secretary Kingsburg, \$100; Nels Hansen, \$100; L. B. Williams, \$50; Carl J. Carlson, \$50; Ole Allen, \$50; J. B. Anderson, \$50; R. G. Smith, \$50; Gust Larson, \$50; A. A. Miller, \$50; A. W. Anderson, \$50; A. J. and W. A. Hovstrom, \$50; Albin N. Edman, \$50; Paul Pierson, \$50; Otto L. Peterson, chairman, \$50; J. Lauritzen, \$50; A. M. Schelline, \$50; C. O. Erickson, \$50; August Johnson, \$50; Karl J. Thullen, \$50; Carlson, \$50; Emil Erickson, \$50; John Otto Anderson, \$50; O. A. Landstrom, \$50; C. M. Johnson, \$50; W. H. Kramling, \$50; Alfred Moding, \$50; Gust Lorin, \$50; C. W. Johnson, \$50; Nelson & Sons, \$50; L. Skoglund, \$50; P. A. Skoglund, \$50; A. E. Anderson, \$50; E. H. Hellen, \$50; C. L. Seward, \$50; P. R. Hurline, \$50. Total \$6,140.

### SELMA TAKES STOCK

Most satisfactory returns have come from Selma, where the company circulated a list there and received the following names and subscriptions: L. Jensen, \$50; C. Stockholm, \$50; N. P. Nelson, \$50; Martin Mortensen, \$50; R. L. Coles, \$50; Louis Coles, \$50; Mrs. Mary Larson, \$50; W. G. Sanderson, \$50; Peter Thomsen, \$50; Fred Anderson, \$50; Mathias Thompson, \$50; H. F. Graper, \$50; Nels Anderson, \$50; Jess Anderson, \$50; M. J. Jaul, \$50; Peter Vind, \$50; Nels P. Sorenson, \$50; Nate Carlson, \$50; H. & W. Parker, \$50; M. Thompson, \$50.

### WIFE CHARGES NON-SUPPORT.

A complaint was issued in police court yesterday charging William Welliver of Vally Valley with failing to provide for his wife and minor children. The complaint was signed by his wife, Mrs. Alonia Welliver.

## BOY IS KILLED UNDER BIG WAGON

Johnnie Russell Has Skull Crushed; Sister Also Injured

Jolted from the tongue of a wagon upon which they were stealing a ride, Johnnie Russell, 7-year-old son of August Russell, 1311 Amador street, was killed beneath the wheels of a trailer wagon, and his sister, Marguerite, aged 4 years had her right leg fractured beneath the heavy wheels. The accident occurred yesterday afternoon at 3 o'clock at U and Amador streets.

The six-horse team, drawing the two wagons was driven by E. P. Landis of Fowler. Unknown to Landis, the two children ran into the street between the two wagons. The boy climbed onto the tongue, while the little girl, according to witnesses ran along by his side. When the wagons were making the turn into G street, the boy was jolted by the front wheel of the wagon and both fell. The front wheel of the wagon passed over the boy's head, crushing it, and the girl's right leg, fracturing it in two places.

The police ambulances brought the girl to the emergency hospital, where Dr. Adams ordered her removal to the county hospital. The parents, who were employed in the J. K. Armsby packing house were brought to police headquarters and informed of the tragedy.

### Stops "Dead" Wagon

The grief-stricken mother left her little girl at the emergency hospital as soon as she learned that she was not dangerously injured and arrived at the scene of the accident just as the "dead" wagon was carrying the remains of the boy to the morgue. Rushing into the street she stopped the team, and endeavored to open the rear door of the wagon and reach her child. She was held by several bystanders, until the wagon was out of sight.

Driver Landis went to police headquarters following the accident, where he made a detailed report. He was released immediately as being without blame in the matter.

The inquest will probably be held today.

## ASSOCIATED BUYS PACKING COMPANY

Lyman Firm's Contracts, of 3,000 Tons, Taken Into Association

Announcement was made by the California Associated Raisin Company yesterday that it had bought the fruit packing company, a packing company that has conducted a business here for a number of years. It has taken over all the contracts with growers controlled by the Lyman company.

According to estimates made yesterday the Associated company has thus taken into the association about 3,000 tons of raisins that it did not control hitherto. Announcement also was made in a letter sent out to packers that the company would extend the date for selling the old crop raising to September 26. The date for shipping will be postponed to September 26, the announcement stated.

## HURT IN ALTERCATION WITH SPECIAL OFFICER

Andrew Day Taken to County Hospital for Treatment

Andrew Day, living at Ninth and Ventura streets, sustained several lacerations about the head and a possible skull fracture last night when he was knocked down by Special Officer R. J. Dayken of the Santa Fe station. The injured youth was taken to the county hospital.

Dayken stated that he had attempted to send the youth home, but that the young man refused to go. Day, he says, was intoxicated, and after arguing for several minutes, he struck the officer. Dayken returned the blow, which was of sufficient force to knock the youth down. When he fell his head struck a cement curb.

Day was treated by Dr. W. L. Adams at the county hospital.

## RAISIN CITY MAN HELD UP IN PARK

Fred Wicka of Raisin City reported to the police yesterday that he had been held up last night by two armed men in the Southern Pacific park. The thieves obtained \$25 from their victim. The police were furnished with an accurate description of the two men, both of whom were Americans.

## TIME FOR BUYING WINE GRAPES ENDS

Associated Raisin Co. Purchases About 6,000 Tons From Growers

The time for the purchase of (shades) and malaga grapes from the growers by the California Associated Raisin Company expired yesterday. The decision of the Associated to buy the wine grapes grew out of the failure of the California Wine Association to manufacture them into wine this year.

The decision was induced largely by the belief that the growers, rather than lose the crop of the two varieties, would make them into inferior raisins. A price of \$10 a ton for these grapes was paid and it was announced some time ago that the time for executing the contracts would expire yesterday. The manufacture of wine and brandy is the plan of the Associated.

Though no definite figures as to the amount of the grapes purchased were available yesterday, it is believed later computations will show the amount to be between 5,000 to 5,500 tons.

## ADVOCATES SCHOOL HERE FOR HEBREWS

Services for Orthodox Jews Is Brought to Close

Following the close of the New Year service for the Orthodox Jews yesterday it was announced by Rabbi Schaferman, who has conducted the services here, that in all probability he would establish a school for the Jewish children of Fresno.

Rabbi Schaferman preached yesterday on "Education for the Younger Generation." He declared that steps must be taken to educate the children of the present generation and that it would be best accomplished by the establishment of Jewish schools for the Hebrew children.

The services yesterday closed the observance in Fresno of the Orthodox Jews for the New Year. The next Jewish holiday will be "Day of Atonement" which starts next Friday evening and lasts through Saturday.

## COUNTY'S ENDEAVOR MEMBERS TO MEET

Convention San Diego Is Theme of Two Sessions Sunday

Echoes from the San Diego state convention will be the theme of the two sessions tomorrow of the Fresno county's union rally of the Christian Endeavor societies. Two sessions will be held at the First Presbyterian church, the first beginning at 2:15 o'clock in the afternoon, and the evening session at 6 o'clock. An interesting program of talks and vocal and instrumental music has been arranged.

The program follows: 2:15—Song service, Roy O. Youtz, leader. 2:35—Prayer, Clinton L. Miller. 2:50—Address of welcome, (State President) Harry G. Denton. 3:15—Convention song, San Diego delegates. 3:30—Prayer Circle, May Elmore. 3:50—Quiet Hour, Maud Wilcox. 4:15—Bible story, Martha Douglas. 4:30—Youth Legion, Henry McFadden. 4:45—Hospital, Frank McKay. 5:05—Social committee, Gwendolyn Tobin. 5:20—Vocal Trio, Elms, Esther and Thelma Johnson. 5:40—Lookout committee, Leola Day's notes. 6:00—Missionary committee, (State Missionary superintendent) Mae Plathiers. 6:15—Prayer meeting committee, Sylvia Klempner. 6:30—Citizenship and Temperance, R. H. Lonsdale. 6:40—Lunch and get acquainted hour in basement. 6:50—Song service, Roy O. Youtz, leader. 7:10—Prayer, W. P. Williamson. 7:25—Cells only, C. H. Leonard. 7:40—Stewardship, (State President) Harry G. Denton, Grace White, Mrs. C. H. B. Kettle. 8:00—Vocal solo, Ed. Kemalyan. 8:15—What I Brought Back, (State Missionary superintendent) Mae Plathiers. Lawrence Downen, Viola Mason, Marie Reynolds, Muriel Klette, Jessie Pinell. 8:30—Consecration service, I Have Chosen You, Pastor Connelley. 9:00—Bible Benediction.

### Conferences.

## PROGRESS IS RAPID ON STATE NORMAL SCHOOL BUILDING

(Continued from Page 7.)  
tion of the grounds. This work will not be done, however, until the buildings have been entirely completed. The gymnasium will be used for a number of purposes, notably for gatherings of the students, until the main building is ready for use.

At the meeting of the executive committee, that body went into the matter of building for the summer school at Huntington Lake, which it was decided to hold this year. While Mr. McLane was building will be done, Mr. McLane was authorized to see that there was sufficient facilities to accommodate students and faculty and that there were other necessary improvements.

## LEMOORE HOME CONTRACT LET

G. H. Chinn, of Lemoore, has awarded the contract for the construction of his new residence at Lemoore to the firm of Davis and Armstrong, Lemoore contractors. The home will be constructed according to the specifications prepared by Fred L. Schwartz of Fresno.

Mr. Chinn received the following bids, which do not include the cost of painting, plumbing, heating and plumbing, which will add about \$2,000 to the cost of the residence: Davis and Armstrong, \$12,500; J. T. Brown, \$15,250; Traveler-Schultz company, \$16,750; G. H. Walker, \$16,000; Mr. Neal, \$17,152; W. H. Almar, \$17,812. The building will be a handsome one and modern in every particular.

## TWENTY ACRES BRING \$16,000

KERNAN, Sept. 10.—The Caleb ranch in the Dakota colony, twenty acres, sold this week for \$250,000 to G. L. Williams of Fresno. The place is improved with a comfortable house and young trees and alfalfa. Williams will take possession next week when the Caleb return to their former home at San Jose.

## HOO HOOS TO BE INCORPORATED

SAN FRANCISCO, Sept. 10.—Reorganization of the Concentrated Order of Hoo Hoo, the lumbermen's social organization, was voted by the delegates of the order in convention here today. The order has not been fully reorganized since it was said but the order will be incorporated.

Emerson D. Tennant, of St. Louis, Mo., was elected secretary-treasurer at today's session. Other officers will be elected tomorrow.

# California Oil News

## NEW SUPERVISOR TO ARRIVE IN OCTOBER

Chester Narmore to Take  
Up His New Duties in  
Midway Next Month

TAMPA, Sept. 10.—Chester Narmore, deputy oil and gas supervisor of the Midway-Sunset field, will not arrive to take up his new duties until early in October, because of other work at home which must be completed. Because of this the California State Mining Bureau has sent out a letter informing operators that until his arrival E. L. Latham, deputy for the Santa Maria district, will be in charge of the Kern River, Midway-Sunset and McKittrick territories. All operators having business with the mining bureau or desiring information relative to the new oil laws can obtain the same by calling on Mr. Latham at his office in the Smith building. The mining bureau is now getting out forms for the rendering of logs, reports of production, etc., which will be distributed to the operators.

## RECEIVER PAYNE TO REMEDY INFILTRATION

Action to Stop Water  
Showing Up in Well  
On Withdrawn Lands

TAMPA, Sept. 10.—Deputy Receiver H. H. Payne, representing the government, is conferring with the officials of the National Pacific Oil Company relative to what should be done with the No. 2 well on fractional section 20, 12-23, and the offsetting wells, which are showing up much water. Messrs. Campbell, Sperry, Williams, Tait and Latham have conferred relative to the wells, and it is reported that arrangements to test out and shut off the water are to be started in the near future. Plans are also being laid for the starting of work on the Nos. 1 and 2 wells of the 12-13-24 oil company, on section 22, 12-23.

## ST. HELENS BRINGS IN MIDWAY GUSHER

Secures Flow of 1,000  
Barrels in Well in  
Buena Vista Hills

TAMPA, Sept. 10.—The No. 9 well of the St. Helens Petroleum Company, located on section 26, 22-24, in the famous Buena Vista hills, with a flow of 1,000 barrels daily, was completed at a depth of about 2,500 feet. The well is under perfect control, it flowing steadily through a heavy gate valve. The No. 7, which was brought in several weeks ago with a small production, is being deepened to a lower sand in the belief that it may be made a big producer. The derrick is up for the No. 10 with drilling to start in the near future.

## PLAN TO REPAIR OILFIELDS ROAD

Bakersfield-McKittrick Highway Is  
to Be Put in Good Shape Before  
Fall Rains Set in

McKITTRICK, Sept. 10.—The Bakersfield-McKittrick public highway across the McKittrick foothills to the corporate limits of the latter city, on the northern border, representing a distance of approximately 2 1/2 miles, is being maintained, much to the gratification of motorists and others having occasion to use this well-known thoroughfare. The work is under the supervision of Castro & Binisell, contractors, who have a large force of men and teams at work and are making excellent progress in the undertaking, despite unfavorable climatic conditions, the excessive heat prevailing at intervals within the last two or three weeks, having delayed operations to a considerable extent. With the mercury registering at times from 110 to 112 degrees, the teams were unable to complete their daily tasks, while the dust arising from the road was so thick that the laborers were frequently compelled to desert from the performance of their duties. Notwithstanding these adverse conditions, the results have been very satisfactory. Curves in the highway have been strengthened, numerous fills made and summits cut down at some points to the extent of fifteen feet. Sharp curves and steep grades being eliminated, the route throughout the foothills when completed will be decidedly better than since the highway was first laid out. With the completion of this work, that of improving the road from the southern limits of McKittrick to Taft and Maricopa is to be commenced, present plans favoring the end of the task at the earliest possible day. After the fall rains come and the earth becomes packed, comparatively little time will have elapsed before the oiling of the highway will be inaugurated. Next will be the finishing touches on what promises to be one of the best sections of the route connecting the oil fields with the county seat of Kern county and the other portions of the state.

## OBISPO OFFICERS VISIT OILFIELDS

TAMPA, Sept. 10.—In their efforts to at all times keep close record of what is being done, the Obispo house on section 22, 12-23, Messrs. Darnsbury, Wickenden and Smith, directors of the Obispo company, spent yesterday in the fields, they arriving from their homes in San Luis Obispo.

## FAVOR IMMEDIATE PURCHASE OF TRUCK

Commissioners Do Not  
Fix Blame; Ask Loan  
of S. F. Chemical

A recommendation that the city purchase a new chemical truck to take the place of the one destroyed by fire last Tuesday night, was made by the police and fire commissioners last night. They met to probe the circumstances surrounding the fire.

Chief Whitehouse was instructed to request the temporary use of a horse-drawn chemical wagon from the San Francisco fire department until a new piece of apparatus could be purchased. Although the commissioners probed the causes of the fire and the action of the men in charge of Chemical No. 2, no action of condemnation or exoneration of the firemen was taken. Witnesses were Chief Whitehouse, Captain Thibst, Driver Stinchman and Captain Subdian.

The three firemen from Engine No. 2 told practically the same story. The chemical was driven between two loads of hay, one of which stood under a long shed. When they arrived at the building, but one wagon of hay was left, and this was confined to a small area. Subdian had begun to play the chemical on the blaze, when the combustion of gases spread the fire to the shed and other loads of hay. Driver Stinchman attempted to move the chemical, called his engine, and although both men tried to crank the motor, they were unsuccessful, and were forced to abandon it to escape with their lives.

Department Crippled  
With the chemical destroyed the department was declared to be badly crippled by Chief Whitehouse last night. Small fires in the east side of the city must be handled by Chemical No. 2, which leaves the business part of the city unprotected while it is in service.

It is believed that the temporary loan of a horse-drawn chemical wagon can be obtained from the San Francisco department as it recently motorized several houses.

The recommendation of the commissioners will be presented at the board of trustees at their next meeting, when it is believed they will act favorably upon it.

Insurance adjusters have not passed upon the loss of the burned truck, but it is believed that they will do so within a few days.

## DELEGATES NAMED TO FLOOD CONTROL MEET

Resignation of Isabel  
Hoover Accepted;  
Successor Named

The Board of Supervisors at its meeting yesterday named John Fairweather, Henry Housen and L. A. Nares to represent Fresno county at the International Drainage & Flood Control Congress which will be held in San Francisco from September 17 to 21.

The resignation of Miss Isabel Hoover as assistant librarian was accepted to take effect September 22. Miss Mary Harris was appointed to fill the vacancy and Miss Elizabeth Ashman was named to succeed Miss Harris. Miss Hoover sails next month from San Francisco for Africa where she will be married.

The hearing on the protest against the assessment for the Riverside Reclamation District was yesterday continued until September 17.

## NEARLY FIVE MILLIONS TAKEN IN AT P. P. L. E.

SAN FRANCISCO, Sept. 10.—In a statement of the finances of the Pan-Pacific exposition, covering the period from its opening, February 20 to September 5, submitted today by Rodney S. Durkee, comptroller, a net cash income of \$914,665 is shown. The total income for the period was \$1,647,000, leaving against a total expenditure of \$732,335.

The report of the comptroller that the unadjusted claims against the exposition company will not exceed \$60,000.

## RECORDED DEEDS

## Millions for Cupid and a Submarine

**The Romance of Drummond Jones, Man of Society, Who Married an Heiress and Now Has a Fortune to Back a Pet Scheme to Equip Undersea Craft With a Perfect Engine of His Creation**

Drummond Jones of St. Louis has "made good." In the short space of six months, during which he laid aside all thoughts of tennis, the net champion advanced three rungs from the bottom of a clerical ladder, won the heart of an heiress and the esteem of her father, and now stands in a fair way to realize the ambition of his life—the making of a submarine engine that will "out-engine" any other in the navies of the world.

On Wednesday, April 7th, young Jones became the husband of Miss Marie Busch, granddaughter of the late Adolphus Busch, and daughter of August A. Busch, the St. Louis brewer. Thus the pluck and courage of a wide-awake American youth triumphed over the attentions of many suitors from abroad—for Miss Busch, you must remember, is as popular on the other side of the water as she is in the land of her birth.

**A "REAL" ROMANCE.**

Pages from a book of fiction contain no more thrills, no more romantic situations than were included in the wooing of "Drummy" Jones.

To begin:

About five years ago "Drummy," with a number of friends, was motoring through St. Louis county. Fate (whether in the form of a punctured tire or overworked engine no one seems to remember) brought the car to a stop in front of Grant farm, the home of the Busch family. Some one in the party introduced young Jones to Mr. and Mrs. Busch and to the Busch children. Among them was Miss Marie, then only 17 years old.

It was love at first sight—at least on the part of "Drummy" Jones. But he had reached his majority only the year before. Miss Busch had not yet made her debut in society. The young man dismissed any serious intentions he might have had from his mind, though he

became a frequent visitor at the home of the beautiful heiress.

**JOINS MINSTREL TROUPE.**

A year later "Drummy" put on a high silk hat and a frock coat and joined a minstrel troupe. No, not a professional aggregation, but a gaily-tinged St. Louisian's charitably inclined. They sang and danced for the benefit of the poor. In a box one evening sat the Busch family. Miss Marie, applauded "Drummy's" stunts—that much society noted. But she also applauded others on the program. Verily, it was a puzzle to determine if the pretty heiress gave a snap of two fingers for "Drummy" or any of a score of admirers.

When Marie Busch made her debut at Sunset Inn in 1912, young Jones formally declared war on her seeming indifference. He "opened hostilities" by proposing. Her ex-ample only is known only to two people—herself and "Drummy." But a short while later they were seen together at almost all functions that the heiress attended, but neither Miss Busch nor the young man would admit that an engagement existed.

Last fall "Drummy" walked into the office of August A. Busch. The conversation, so far as Mr. Jones can recall, went something like this:

"I want a position."

"Yes—go on."

"I want to work from the ground floor up. I have ambition and initiative. Place me somewhere to demonstrate this."

August A. Busch is nothing if not a business man. He is able to recognize a "find." Also he is a family man—devoted to his children. Away from the whirring wheels of industry he had found time to note that no mere friendship existed between his daughter and young Jones. So he killed two birds with one stone—he accepted the services of his "find" and added to his daughter's happiness.

After which Papa Busch and "Drummy" had a heart-to-heart talk,

in which the word "submarine" played an important part.

Several days later young Jones appeared at the offices of the Busch-Suker Bros. Diesel Engine Company plant for work. He was detailed to the accounting department, figuring up costs and operating expenses. He sat on a high stool, as did the others, and attended strictly to business. And he did this same thing day after day.

Friends learned that "Drummy" was working for a salary. In the lobby of the theater, in the grill room at the club, it was a choice morsel of gossip. The friends knew that young Jones had money of his own—that his income from adding figures to the engine plant wouldn't pay for his tips; so they put two and two together and said: "Drummy," old boy, has got to show Miss Busch that he can do other things besides play tennis. A charming girl, Miss Busch, with plenty of good common sense.

**"DRUMMY" PROMOTED.**

A few months later Jones was put on another set of books—a bit more important task. Every so often, to use his own words, he proposed to Miss Busch.

"I think it was eleven times in all," he said. "Although it seemed to be a mutual understanding that we were going to be wedded, she deferred giving me a definite answer."

Next the ambitious young man advanced to work on the ledger.

The other evening, at a family dinner attended by fourteen members of the Busch family, the engagement was formally announced. Evidently Miss Busch had decided that "Drummy" had "made good."

Papa Busch had decided that question a long time ago.

"He won me over the day he came into my office and asked for a job," said the wealthy brewer. "He didn't seek a job on the strength of being an acquaintance of my daughter, but upon the basis of 'I've got something to offer in the way of conscientious services; how much am I bid?'"

"He didn't brag about his ability. He merely asked for a chance to demonstrate it. Of course, I know that he had been associated with just enterprises with a degree of success."

"I said: 'Jones, I am going to take you at your word. You can begin at the bottom rung. When you show me that you have merited promotion you shall be promoted. That's your proposition, isn't it? There's an opportunity over there at the engine plant to make good with a bang.'"

And right here is where the heart to heart talk, in which the word "submarine" played an important part, came in.

"The stationary engine is not the only one manufactured over at the plant," said Mr. Busch. "We also make an engine for submarines. I told this to young Jones and he became very enthusiastic."

**HIS GREAT AMBITION.**

"The making of good engines, including those for submarines, is now his one ambition. Necessarily he is beginning at the very root—the business end of the plant. He will surge ahead because he has brains

and knows how to use them. The first down in the morning—one of the last to leave at night; that's young Jones. He's a live wire. Some day he will know enough about submarine engines to make his services invaluable."

Will his brain double the speed of the submarine?

Will his ambition be the means of revolutionizing naval warfare?

When Miss Busch accepted "Drummy" on his twelfth proposal he naturally went to talk it over with Mr. Busch.

"But," said young Jones, "I didn't ask him for his daughter, and in marriage. That sort of talk wouldn't make a bit with him. I just said: 'Mr. Busch—' but what difference does it make what I said to him?"

"Anyway, I'm glad that Miss Busch has consented. You know she was no cinch to win, but I was a believer in the old adage, 'If at first you don't succeed, try, try again.'"

Miss Busch is one of the five children of Mr. and Mrs. Busch. Her brother, Adolphus III, is older, and Clara, August, Jr., and Allen are younger. She attended Rosmar Hall and studied under private tutors both in America and in Europe.

Drummond Jones is the son of Mrs. Clarence A. Jones of St. Louis. His father was killed several years ago by a discharged employee. For six years young Jones had been tennis champion in doubles and singles in the Central States Championship tournaments, but last year he lost the championship in singles but retained the title in doubles in both tournaments.

And to his trophies he now adds those gained in love and business.

"Hello," said the teacher, "you may give the plural of the word ox."

"Oxen," answered Nellie.

"That is right. Now, Rabbit, what is the plural of the word fox?"

"That's easy," replied Rabbit. "Why, foxen, to be sure."

Grain as a Weight.

The name "grain" as a weight originated in a curious way. The old English pound was equivalent to the weight of 7,680 grains of wheat, taken from the middle of the ear, this given 480 to each of the 16 ounces of which the pound was composed. Although the standard is now entirely different, the fact that there are still 480 grains to the

ounce Troy and the ounce apothecaries' weight carries us back to the time of the Conquest, and shows us how the name grain originated.

**Locusts and Wild Honey.**

The Bible tells us that John the Baptist fed on "locusts and wild honey," and most persons seem to take it for granted that the locusts were the insects that we call by that name. It is probable, however, that they were not insects at all, but the fruit of the carob tree, the dried pods of which are the "locust-beans" now sold as food for cattle. The carob tree is sometimes called the honey tree, from the sweet pulp contained in its pods when they are fresh.

**What Is a Lyric?**

Among the ancients, lyrical poetry was verse to be sung to the accompaniment of the lyre, or harp. In modern usage, the term lyric is confined to songs relating to feelings or emotions, as distinct from descriptive songs. For instance, the "Ode of Pegasus" is a song, but not a lyric; while Burns' "Highland Mary" is an exquisite specimen of the lyric.

DOINGS OF THE VAN LOONS—No, Bobby's Plan Didn't Work Out Quite Right

By F. Leipziger

## E. S. ARMSTRONG OF LOS ANGELES IS WINNER OF CALIFORNIA STATE GOLF CHAMPIONSHIP

Heinrich Schmidt, Contender in Finals, Loses Match By Poor Driving—New Champion Erratic at Start But Steadies in Play—6 Up, 4 to Go

DEL MONTE, Sept. 10.—E. S. Armstrong of the Midway Country club, Los Angeles, won the California state golf championship by defeating Heinrich Schmidt of the Claremont Country club 6 up and 4 to go on the fourteenth green of their match. Schmidt lost his poor driving.

Schmidt crowded enough solid and hooked drives into his work to lose in any kind of country, going out. The Claremont required 35 strokes for the journey, one over par, and on the second leg of the journey took a 39 or four over. Armstrong's medal was two strokes better for the entire journey.

## BEAVERS MUFF FREELY, LOSING GAME TO OAKLAND, 6-2

League-End Clubs Play Loose Ball—Four Errors in Fourth Do Damage for Portland

SAN FRANCISCO, Sept. 10.—Oakland won today's game with Portland, 6 to 2. The Beavers muffed the game away. They made four errors in the fourth inning and the Oaks took the opportunity to annex four runs. Both teams played loose ball throughout.

Armstrong, the new champion, has been a contender for Del Monte honors for a number of years. In 1911 he captured the title from a big field and in 1912 was runner-up with Jack Neville in the tournament finals.

His ability to recover from trouble in today's match was unimpaired. Time and again he laid the ball almost dead to the hole with a precision that rattled the usually imperturbable Schmidt.

## National League

CINCINNATI, 7; ST. LOUIS, 1.

ST. LOUIS, Sept. 10.—Cincinnati finished the season with St. Louis here by taking today's game, 7 to 1, and making a clean sweep of the series. Lead was in great form and showed that their hits while the visitors took advantage of Meadows' wildness, which combined with a series of singles, gave them a lead of seven runs.

With this handicap, Manager Huggins sent in LaLime, a recruit from the Three Stars team, who finished in good style. Early Butler and Fletcher had singled in the first inning, LaLime followed with a double and the visitors took advantage of Meadows' wildness, which combined with a series of singles, gave them a lead of seven runs.

Five down going to the tenth. Schmidt dropped the eleven on the collection of bad shots and when the next three were halves, gave up the match and gripped the hand of the new champion.

## LOS ANGELES COMES BACK AND WINS GAME 7-5 FROM SAN FRANCISCO

Angels Step Lively in Sixth and Score Five Runs—Make Tallies On Two Double Steals

LOS ANGELES, Sept. 10.—Los Angeles got back its pep and defeated San Francisco today, 7 to 5. The Angels scored five runs in the sixth when Butler walked, West singled and Butler scored when Hodge dropped Mungert's fly. McMillan singled, scoring West and Mungert. After Ellis walked, McMillan scored on a double steal. Koerner singled and Ellis scored on another double steal.

## Player Eligibility Question Still Is Unsolved By League

City Team Officials Find Rule Which Refutes Manager Watter's Objections—Regards Signing New Men

CITY LEAGUE officials yesterday discussed the point at issue between the Derrmers and Scheidt's Boosters, the two leading baseball squads, but no decision regarding the mooted point was made.

Eligibility of players is the issue around which the discussion revolves. The big championship series, to determine the winners of the first half of season's play, starts next Sunday and the personnel of the two teams must be determined today.

# FIRE INSURANCE UNDERWRITERS REPORT ON FRESNO

Water Company Blamed for Inattention to Needs of City

DEPARTMENT NOT EQUAL TO DEMAND

Alarm System Found Seriously Deficient By Committee

Water company does not pay enough attention to fire protection needs of the city.

Present fire force does not provide adequate fire protection.

Fire alarm system is seriously deficient.

The Merchants' Association yesterday received a report from the National Board of Fire Underwriters covering fire protection in Fresno, telling why rates here were increased and giving recommendations for overcoming the deficiencies.

Among other things the report states:

"The water company continues to pay little attention to fire protection needs of the city, particularly in the strengthening of the gridiron system; extensive lengths of pipes laid have been for domestic supply alone, and a large part of that which might be considered as fire protection has been only four inches in diameter, a size which has proven to be too small for proper protection, particularly where pressure is as low and consumption as excessive as found in Fresno."

"Greater reliability of service has been insured by the installation of the second substation; improved operation has been made possible by the automatic self-starting compensator, and a material increase has been made in pumping capacity. However, this increase has been only such as to meet the increase in population, and in the summer months full operation of all stations is necessary to meet domestic demands; also few of the domestic systems are so connected to the distribution system as to make their capacity available for fire protection."

"The city itself is directly responsible for much of the unsatisfactory fire protection afforded by the water supply. Only through a rigid enforcement by the police of the ordinance prohibiting sprinkling at time of fire can adequate supply be assured, and it is solely within the power of the city to secure a sufficient number of hydrants to give protection in residential sections. With a proper number of hydrants, estimated at two to three times the number now in service, increased revenue would be obtained by the water company, for which the city would acquire more adequate pipe, sizes in the distribution system."

"No fire flow tests were taken, but

## Woman Takes Vases From Cemetery for Fruit Canning Use

The mysterious disappearance of a large number of pots, vases, jardinières and jars from the Mountain View cemetery was solved when Mrs. Schmitz, 121 B street, was arrested by Superintendent Rice while leaving the place yesterday with a sack filled with various vessels.

The woman was released from jail by Sheriff McSwain after she had told a story in which she declared that she had taken the pots, vases and other containers for use in canning fruit. The woman is said to have declared that she was too poor to afford to buy jars.

Prior to her arrest she is said to have told Superintendent Rice that she would pay him \$50 or more if he would not arrest her.

The theft of twenty-four brass water faucets, several lengths of hose and the vases led Rice to watch the cemetery.

conditions in the distribution system have changed so little for the better, that the results obtained in 1911 are a fair representation of the amounts now available. In that report it was stated that:

"The results show that sufficient quantities are not available even under the favorable conditions prevailing, except for some residential districts requiring small quantities and located along the larger mains. The single outlet-hydrants, as well as those with two outlets and small connections to the main, failed to give a free flow sufficient for a second size fire engine, even with a pressure of 20 to 25 pounds in the mains."

"In sections surrounded by or near pumping stations, adequate quantities were not obtained nor was a reasonable proportion of the capacity of the nearby pumps available, owing to the weakness of the distribution system and the small hydrants in use. Many well-built-up sections are more poorly protected than those covered by the tests."

Fire Force too Small.

Concerning the fire department the report in conclusion says:

"The present fire force does not provide adequate fire protection; the increase of 9 men recommended as needed in 1911 has been met by only one-third this number, although the city has grown rapidly and materially increased its built-up area. The department is seriously undermanned, and several companies are without officers."

"Apparatus is well located for the protection of the mercantile district, but ladder service is entirely inadequate, with the present obsolete equipment. Fire stations are well located and can be easily adapted to the use of motor apparatus. Better engine protection is needed for outlying districts, and pumping capacity and appliances for throwing large streams are deficient."

"Engines, except the one in service in Engine Company No. 1, are in poor condition, and other equipment, except the ladder truck, is in fairly good to excellent condition. Hose is of good quality, well cared for and properly tested, but a reserve supply should be provided and 2 1/2 or 3-inch hose might be used to advantage on long lines."

"Minor equipment should be augmented to provide a more complete equipment of mobile appliances."

Regular Drills Necessary.

"Discipline appears to be well maintained, but regular drills under an experienced drill master would benefit the service."

"The response to alarms is satisfactory."

## UNSETTLED; PERHAPS EVEN SHOWERS IS WEATHER FORECAST

Though conditions will be unsettled and even showers are possible today, still tomorrow will be fair, according to the last word from the weather man yesterday. The weather yesterday was somewhat franky, the lowest temperature of 58 degrees being near the record and the highest of 89 degrees being very pleasant. There was a good breeze and clouds were in evidence much of the day.

Developments during Friday have not changed the indications of early Friday, when a forecast of early showers was issued, the report states. No rain was reported from regular stations except from Los Angeles, where a sprinkle was registered.

A sprinkling in amount and is prompt, except in outlying districts, or when apparatus is held up at railroad crossings.

The use of chemicals and small hose streams at ordinary fires is a commendable practice, with an increased fire force, salvage work could be undertaken, which would help reduce fire losses.

Recent improvements in motorized apparatus is a step in the right direction, but does not increase the protection in proportion to the growth of the city or bring the strength of the department up to that recommended in his report of 1911."

As to Fire Alarms.

Concerning the fire alarm system the report in conclusion says:

"The fire alarm system is seriously deficient and totally inadequate for this size, and having the number of alarms which occur annually in Fresno."

"The absence of boxes in many sections is serious; dependence upon telephone for the receipt of alarms, particularly in a city in which many of the inhabitants have little knowledge of the English language, is most unsatisfactory and liable to result in serious delays and failures."

"The telephone exchange is in a building of ordinary construction that could be easily damaged by fire and put the entire telephone system out of service; this would mean that the city would be without fire protection in many sections."

"The need of a modern fire alarm telegraph is imperative to provide adequate protection."

Recommendations.

"The following recommendations are deemed of the most importance and their adoption is urged by the underwriters:

"That the city stringently enforce the ordinance prohibiting sprinkling at times of fires."

"That 12-inch and larger mains connecting the pumping stations in a complete arterial system be laid at once. (A map is sent.) It shows where the mains should be laid."

"That the city order the immediate installation of hydrants, such that in the residential section there will be one hydrant at each street and alley intersection or at each street intersection, with additional hydrants in districts having two-story buildings or where buildings are closely grouped."

"That 8-inch pipe be adopted as the minimum size of mains used for hydrant supply; 6-inch to be used only where completing a good gridiron and in no case in blocks over 600 feet in length."

"That additional wells and pumping stations be installed to provide 6,000 gallons a minute fire flow, in addition to the domestic demands."

Fire Department Recommendations.

"That the department be strengthened by installing an auxiliary squad of eight full paid men in place of Chemical Company No. 2, and by increasing the number of full paid men in Engine Companies Nos. 1, 2 and 3 and Ladder Company No. 1 to eight, and in Engine Companies Nos. 4 and 5 and the recommended engine and ladder companies to seven; when this is done, all call men may be dropped."

"That a ladder company be equipped with an automobile service truck carrying chemical tanks be placed in service at quarters of Chemical Company No. 1."

"That an engine company be established in the vicinity of Santa Clara avenue and E street, equipped with an automobile combined pump and hose wagon and the chemical engine now in service with Chemical Company No. 2."

"That Ladder Company No. 1 be provided with a modern quick-raising aerial truck, with 75-foot aerial ladder, preferably motor-driven."

"That Engine No. 4 be replaced by an automobile combined pumping and hose wagon."

"That the fire alarm headquarters be removed to a fireproof building, especially constructed to reduce as far as possible all liability of interruption of service. In the new location, all apparatus to be placed on incombustible mountings and no unnecessary combustible material to be permitted in the building."

"That provision be made for a semi-automatic system having an ultimate capacity of twenty circuits, and that apparatus be now installed to provide for eight box and two alarm circuits, as follows:

"A protector board with heavy current fuses, heat coils and lightning arresters for each circuit, entering headquarters."

"A circuit charging board for operating, with storage batteries in duplicate."

"A non-interfering automatic repeater."

"A detached character wheel manual transmitter."

"A punch register and time stamp to record outgoing alarms."

"A separate circuit and present detached character wheel transmitter for operating the whistle-blowing machine."

"A fire department telephone switchboard as at present in use."

"Suitable means for charging batteries from other than ground circuits."

"In each fire station a punch register connected with a box circuit and one or more tripers or relays connected with an alarm circuit."

"That about 100 additional alarm boxes be installed, so that a box shall be within 600 feet of every building in mercantile and manufacturing districts, and elsewhere within 800 feet of every group of valuable buildings."

General Recommendations.

"That a fire marshal be appointed whose duties shall be to investigate the cause of fire, prosecute cases of arson and assist in the enforcement of all fire prevention ordinances. He should be given authority to subpoena and swear witnesses and make arrests."

"That the building ordinance be revised in accordance with the provisions of the National Board Building Code."

"That ordinances be passed requiring all overhead wires within the fire limits, except trolley wires, to be placed underground within a period of not less than three years."

The report is signed by the committee of fire prevention, comprising George W. Hoyt, chairman; J. B. Norton, George M. Lovejoy, George E. Howe, E. G. Pieper, C. A. Lindum, C. H. Post, C. R. Perkins, H. A. Smith, H. D. Harvey.

## Kutner's--The House That Saves You Money and Pays You Dividends, Too

### New Art Packages

Everything in fine needlework and handiwork again and the industrious needlewoman will find a charming array of latest embroidery ideas in the new art packages now being displayed in our Art Department.

### Hourly Sale of Girls' Dresses

See them on display in the window—pretty white frocks—Sized from 6 to 14 years. They will be sold as follows:

—9 o'clock, \$2.00

—10 o'clock, \$1.75

—11 o'clock, \$1.50

—12 o'clock, \$1.25

—1 o'clock, \$1.00

—2 o'clock, 75c

—3 o'clock, 50c

### Railroad Fare Free

We refund your railroad fare to points within 20 miles of Fresno on purchases of \$15.00 or more in our latest store.

## Outfit Your Children for School at Kutner's Juvenile Department Today--Complete Stocks

Everything you want to clothe the child, from tip to toe, can be found in our Juvenile Department. The stocks are complete with smart little dresses and suits; hats for the little sister and her sturdy brother; shoes for both, and all the necessary furnishings that go to make up the complete outfit.

## Women's Tailored Suits \$5.00 Today Little Girls' Coats--2 to 6 Years \$3.95--\$4.95 Misses' and Juniors' School Skirts \$3.95

Take your choice of a line of women's novelty and tailored suits today at \$5. Values up to \$25.00.

New autumn models for school and "best" wear—velvet corduroys—mixtures—broadcloths and novelty fabrics in white—red—brown—blue and other fashionable colors. All new styles — \$3.95 and \$4.95.

### CITY IS READY FOR OPENING OF SCHOOLS

Two Teachers Tender Resignation to Board

That everything is ready for the opening of the schools in Fresno next Monday was the report that C. C. Starr, superintendent of schools, filed with the board of education at its session last night. Much routine business was transacted at the meeting.

The resignations of Miss Bertha Wine from the Webster school and Miss Alice Stockton from the Kirk school were accepted by the board.

Miss Wine has accepted a position in the Los Angeles city schools and Miss Stockton is to be married. The successors will be named from the unassigned list.

The board gave its approval to the lecture and music course that is proposed for the city this coming winter.

### CHINESE BANDITS ATTACK RUSSIANS

VIADIVOSTOK, Asiatic Russia, Sept. 10, via Petrograd and London.—Natives along the Amur river near this city are being terrified by numerous bands of Chinese bandits.

One of these bands recently captured a Russian trapper and wounded and burned another.

Four days ago the bandits attacked and robbed a construction camp. Another group of outlaws entered the village of Proloff, made the surgeon there a prisoner and wounded his wife.

### PORTER ASKS JURY TRIAL

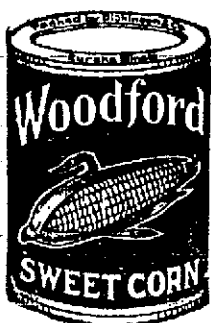

W. R. R. Porter, arrested by the police last Wednesday night on a charge of disturbing the peace, yesterday pleaded not guilty in police court and demanded a jury trial. The date of the hearing was not fixed. Porter was arrested by Policeman Fleming in Chinatown.
